

## **REMARKS**

This paper is in response to the Legal Instruments Examiner's Notice of Non-Compliant Amendment mailed June 14, 2006, which required Applicant to re-file: (a) a substitute specification showing both a clean version and a mark-up version and (b) new abstract in clean text with instruction to cancel the previous abstract. Since the Legal Instruments Examiner did not indicate otherwise, Applicant assumes that the previously filed amendments to the title and drawings were compliant and have been entered. If such amendments were not previously entered, Applicant hereby incorporates the amendment to the title and the amendments to the drawings as filed on May 28, 2006 and request entry of such amendments.

### **No New Material**

The amendments submitted in this response do not touch the merits and are submitted to address only the formal matters raised by the Examiner or identified by the Applicant. No new material has been added by these amendments.

### **Amendments to the Abstract**

The abstract of the disclosure has been objected to as not relating to the process steps of the method of the elected invention. The abstract has been amended to describe the process steps of the method of the elected invention.

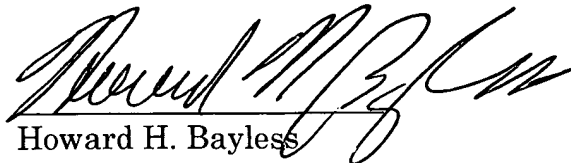

### **Amendments to Specification**

Applicant has identified various typographical errors and similar informalities in the Specification, including correction if missing, superfluous or incorrect reference numbers. Although clarifying language has been included, no

new material has been added. The proposed replacement Specification paragraphs do not touch the merits and are submitted to address only the informalities identified by the Applicant.

The Commissioner is authorized to charge any deficiency or credit any overpayment associated with the filing of this Response to Deposit Account 23-0035.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Howard H. Bayless", written over a horizontal line.
